

What does it say about you if the shoes you rent at the bowling alley are cooler than the shoes you walked in wearing?

Some things in life just keep coming back. Hair (for the lucky). Kudzu. Wile E. Coyote. But computer gremlins don't have to. You see, if you address the underlying cause, you can eliminate many common problems. That means fewer repeat service calls, more productivity for you, and more free time for us to try some new stuff. Like water polo (too weird) and archery (too dangerous). This week, it's bowling. But honestly, we'd rather be fixing computers. So if your current tech service seems a little repetitive, call us. Please. PC Rob nearly pulled off his pinky trying a new shot last week.

Call 540-777-0071. Two computer guys on a mission.

P.O. Box 806

Visit [www.tworobs.com/bowling](http://www.tworobs.com/bowling) for a chance to win a Two Robs Bowl-A-Thon for you and your friends. All you have to do is sign up for a service call (for new clients) or refer someone to us (for current clients).

While you're there, we need some new ideas for what to do with our free time. It can be funny, weird, or slightly embarrassing. Just make sure it's legal, please. If we choose your idea, you could even win a cool prize.
